Allowable Subject Matter

1. Claims 1-22 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not teach that, a central portion surrounded by an outer the central portion having a radius configured to focus a reflected component of an RF signal reflected by the reflector antenna to the vertex area; the outer portion having a radius greater than the central portion and the central portion consisting of a dielectric material in combination with all limitations recited in independent claim 1.

The prior art does not teach that, the radome adapted to cover an open end of the reflector a plurality of tabs formed proximate a periphery of the radome', the tabs configured to pass through a corresponding plurality of cut outs formed in a periphery of the reflector in combination with all limitations recited in independent claims 10 and 15.

The prior art does not teach that, the reflector and a circular radome having interlocking peripheral structure configures such that the radome is jointed to the reflector by mating the structures and rotating the radome relative to the reflector or when the radome is rotated relative to the reflector in combination with all limitations recited in independent claims 18, 20-22.

Art Unit: 2821

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Butle (US 6,437,757) and Desargant et al. (US 6,570,540) are cited to show a reflector antenna.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Minh A whose telephone number is (571) 272-1817. The examiner can normally be reached on M-F (5:30 –2:30 PM).

If attempts to reach the examiner by telephone is unsuccessful, the examiner's supervisor, Don Wong, can be reached on (571) 272-1834. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9306 for regular communications and (703) 872-9319 for final communications.

Any inquiry of a general nature or relating to the status of this application should be directed to the Technology Center receptionist whose telephone number is (571) 272-1553.
